

Conservation by Design — Protection of Metal Items

World Wide Effective Protection For Over 20 Years

... simply better protection

High Surface Area

Intercept Lined
pouches and
bags

Intercept
Cabinet
Filtration

1 Material... simple

Visibility

Ferrous and Non-Ferrous
Metals

**Intercept as easy as
pack, close, store**

Digital Data (CD /
DVD) and other media

Phone:
510-299-2888

Intercept Coated
Fabric Pouches

Protection Using
Intercept Tabs

No Oils / No Volatiles / No VCI's / No Contamination / No tarnish / Just 20 Years Proof
sales@conservation-by-design.co.uk

Intercept is available in a variety of forms — standard and custom bags and films are available

Materials - What Causes Damage

- | | |
|-------------------------|--|
| (1) Paint | (1) Surface erosion / discoloration
By Sulfur Oxides, hydrogen
Sulfide, Ozone |
| (2) Textiles | (2) Reduced tensile strength by
Sulfur & Nitrogen Oxides |
| (3) Textile Dyes | (3) Fading and color change by
Nitrogen Oxides & Ozone |
| (4) Paper | (4) Embrittlement by Sulfur Oxides |
| (5) Elastomerics | (5) Cracking by Ozone |
| (6) Leather | (6) Weakening of surface by Sulfur
Oxides |
| (7) Ceramics | (7) Changing surface appearance
by acid gases and HF |
| (8) Plastics | (8) Strength loss by UV / Ozone |

Intercept Technology protects against them all

- Protects without contamination
- Green Packaging
- Re-usable / Recyclable
- Sustainable
- Effective and Long Lasting
