Intercept Packaging - Protecting Framed Art

Artwork needs special protection. Intercept film or RIBS MVTR film can provide secure, reliable protection against corrosive gases, atmospheric pollution, mold and odors. Intercept also allows RFID chips and RF compatible data loggers to be placed inside the packaging, and be accessed from outside the container without having to open the packaging

Before

The Packaging Process

After

Item: 200 year old Artwork
Value: \$ 150,000.00

Pick Up Location: Bethesda, MD
Destination: Ireland

Intercept film is used to isolate the painting from the outside world. Intercept provides protection for the paint, the frame and the canvas.
