NEW RECYCLED GREEN ARCHIVAL STORAGE BOXES

Conservation By Design (CXD), the conservation storage, equipment and display specialists has launched a new range of acid free, flat packed green EcopHant™ archival storage boxes – offering buyers high quality conservation storage for the same price as traditional non archival kraft boxes.

The Lydamore range is a strong, modular, flat packed box system made from EcopHant recycled box board. The boxes were initially designed and developed to resolve a space shortage problem for one of its existing customers, the Essex Record Office, and is consequently named after the company's first conservator, Amy Lydamore.

The EcopHant boxes are green in colour and by nature – Conservation By Design has the goal to have zero waste in its box manufacturing by recycling its expensive and high quality, long fibre, acid free and lignin free post production paper and board waste. This waste is then made into high density book binders mill board and boxboard using a revolutionary non-adhesive board making machine.

Offering long term protection from light, dust, fire and water, EcopHant is neutral sized for water resistance and is colour fast. This exceptional high strength green board will outlast regular brown kraft/ chipboard boxes by decades.

Designed to accommodate most popular document sizes the two part boxes have two robust tabs for easy handling and can feature either a separate lift off lid or drop front options for ease of access to contents.

2/

They feature a unique wall liner that is snapped in place by inert fixings. This gives a smooth interior for documents and provides extra strength if the boxes are stacked vertically without using shelves. The easily identifiable box colour makes it extremely useful to differentiate priority materials for disaster recovery planning.

The Lydamore boxes are available in three different styles and eight sizes and can be supplied assembled or flat packed to reduce delivery costs and save on storage space. In fact, approximately 20 flat packed boxes take up the same space as one fully made up box.

For more information and prices, visit www.conservation-by-design.co.uk or call 01234 844 360 and request a copy of the Lydamore leaflet which details the sizes and styles available within the range.
